

Accounting Services

Tyack & Associates provides professional outsourced bookkeeping through chief financial officer services to small and medium-sized businesses.

Outsourcing your back-office accounting function allows you to focus on your core business. Outsourcing also allows our clients to gain access to a level of technology and expertise that they generally could not afford.

Contact us for a no cost assessment and proposal of your business accounting requirements.

Tax Services

Tyack & Associates provides tax preparation services to individuals, corporations and partnerships.

We schedule returns and ensure that you meet all required statutory filing requirements.

With the continuous changes in the tax laws, we continue to stay abreast of these changes by attending seminars and other continuous professional education.

Consulting Services

With our experience in public and private practice as well as our continuous professional development, we are in a position to offer advice on various managerial, operational and financial issues.

We can assist with business strategic and financial plans. We will also work with you to customize your financial information processes and controls to ensure you are operating an efficient company.

Our experience will help your business grow by managing cash flow, analyzing profitability, and using efficient accounting procedures.

Advantages of Outsourcing the Accounting Function

- No internal staff to hire, train and manage
- Access to Chief Financial Officer level expertise
- Rapid implementation - active accounting system within days
- Reliability, timeliness and consistency
- Significant long-term savings on internal costs
- Obtain strategic focus in your organization
- Small companies receive “big company” accounting expertise and technology
- Continuity in the accounting function
- Plus many more

“Let us manage your accounting department while you focus on your core business.”
